

PRIMA NEST & STACK

We are excited about this chair. Prima is a family of chairs that merits its central place in our range of multipurpose seating – clean contemporary design, strength, durability and finishes to suit a huge variety of settings and the Nest & Stack now adds some unique features.

In addition to the characteristics and features of the standard Prima range including the self-linking system, the Nest & Stack has a tip up seat permitting it to nest neatly when not in use and can be fitted with a large anti-panic tablet that folds away. Will stack up to at least 8 high even with the tablet fitted. Comes with either glides or castors, or a combination, for maximum flexibility. It is the only one of its kind in the UK!

Features
